

When using please follow safety instructions:

1. Before each use check: belts, seams, hooks and tensioner; if you detect any defects – DO NOT USE IT!
2. Use only for fastening objects – do not use for suspending.
3. When stretching the belts do not exceed the strength indicated on the label.
4. Protect the device from sharp edges. Put covers on the corners of the load.
5. Do not twist belts, do not tie knots.
6. Method of fastening and number of belts must be selected according to EN 12195-1.
